

I wanted to open up an opportunity for you to learn more about Mark Kamin and Associates (REBEL's Business Coaching Organization). The work we have done together in the last 3-4 years has truly produced amazing transformation-based results for us.

In the first year we doubled our business. In the second and third year we expanded our staff and our offerings way beyond my expectations and converted to a team environment which improved our Client Service 75%. Because of our coaching, we did it all with easy and grace. Our people are truly "taken care of" and I love running my business with transformation and possibility in the background! Annette deserves credit for developing many, many, many of the things you love most about REBEL.

I only recommend Annette to my closest friends and truly possibility-based clients. She is in high demand and extremely valuable to people who have done the Landmark Forum or other transformational work. I'm recommending that you consider talking with Annette to really explode the possibilities and kick your competitor's butts while the kicking is good!
